

MediaTailor Daily Report

24-Hour Report: October 02, 2025 10:49 UTC to October 03, 2025 10:49 UTC

Configuration: LefGroup1

Critical Performance Metrics

Metric	Value	Status
Avail.FillRate (Avg)	85.0%	✓ Good
Avail.FillRate (Weighted)	84.7%	✓ Good
AdDecisionServer.FillRate	86.0%	✓ Good
AdDecisionServer.Latency	217ms	✓ Good

Volume & Duration Metrics

Metric	Value	Status
Avail.Duration	1.9h	✓ Good
Avail.FilledDuration	1.6h	✓ Good
Avail.Impression	175	✓ Good
AdDecisionServer.Ads	408	✓ Good
AdDecisionServer.Duration	1.6h	✓ Good

Error & Health Metrics

Metric	Value	Status
AdDecisionServer.Errors	0	■ No Data
AdDecisionServer.Timeouts	0	■ No Data
GetManifest.Errors	0	■ No Data
Origin.Errors	0	■ No Data

Metrics Definitions

Metric	Description
Avail.FillRate (Avg)	Simple average fill rate percentage for individual ad avails
Avail.FillRate (Weighted)	Weighted average fill rate: $(\text{FilledDuration}/\text{Duration}) \times 100$
Avail.Duration	Planned ad avail time from origin manifest
Avail.FilledDuration	Actual duration of ad breaks that were filled with ads
AdDecisionServer.FillRate	Simple average of fill rate percentages returned by ADS
AdDecisionServer.Ads	Number of ads returned by ADS
AdDecisionServer.Duration	Total duration of ads returned by ADS
AdDecisionServer.Latency	Response time in milliseconds for requests MediaTailor makes to ADS
AdDecisionServer.Errors	Number of non-HTTP 200, empty, and timed-out responses from ADS
AdDecisionServer.Timeouts	Number of timed-out requests to ADS
Avail.Impression	Number of ad impressions (increments when first segment requested)
GetManifest.Errors	Number of errors while MediaTailor was generating manifests
Origin.Errors	Origin server connectivity problems
